

# POOJA SRI S

8778599024 • poojasomu989499@gmail.com • LinkedIn • GitHub • CodeChef

## SUMMARY

Passionate Artificial Intelligence and Data Science undergraduate with a strong interest in building innovative solutions to real-world problems. Eager to learn emerging technologies, take on new challenges, and contribute to impactful projects through continuous learning and collaboration

## EDUCATION

### B.Tech Artificial Intelligence and Data Science

CGPA: 8.76

KPR Institute of Engineering and Technology

### Higher Secondary

2024 | **88.33%**

MNMC Girls Higher Secondary School

### Secondary School

2022 | **94.2%**

Nirmala Matriculation School

## TECHNICAL SKILLS

**Programming Languages:** Python, Java, JavaScript, SQL

**Web Technologies:** HTML, CSS, React.js, Express.js

**Tools:** Git, GitHub, VS Code, Google Colab, Postman, MySQL Workbench, MongoDB.

**Concepts:** DSA, DBMS, OOPS, REST APIs

## PROFESSIONAL EXPERIENCE

### Jawanexis Technologies, Coimbatore: *Full Stack Developer Intern*

Dec 2025 – Jan 2026

- Developed responsive web applications using React.js, Node.js, and Express.js.
- Designed RESTful APIs and integrated MySQL databases for seamless functionality.

### InternEzy, Coimbatore: *Machine Learning Intern*

Jun 2026 – Jul 2026

- Built and evaluated machine learning models using Python for predictive analytics.
- Performed data preprocessing, feature engineering, and model optimization.

## ACADEMIC PROJECTS

### AI Hospitality Compliance Assistant (SkillGuard) | *Python, FastAPI, RAG, Pinecone, Ollama*

- Engineered an AI-powered compliance assistant using RAG for accurate retrieval of hospitality regulations.
- Leveraged Pinecone and Ollama to deliver fast, context-aware responses through semantic document search.

### Job Portal System | *React.js, Node.js, Express.js, MySQL, JWT*

- Designed a secure recruitment platform with role-based access and streamlined job application workflows.
- Enabled resume management, interview scheduling, and email notifications through a scalable web architecture.

### AI-Based Crop Recommendation System | *Python, Flask, Scikit-learn*

- Created an intelligent recommendation system that suggests suitable crops using soil and weather conditions.
- Incorporated multilingual support and disease prediction to assist farmers in making informed decisions..

## ACHIEVEMENTS

- 3rd Place – Generative AI 24-Hour Hackathon conducted by Kumaraguru College of Technology.
- Smart India Hackathon 2025 – College Level Round 3 Qualifier.
- Class Representative – 3rd Semester, Received Certificate of Appreciation for Leadership
- Placement Coordinator – AI&DS Department, KPR Institute of Engineering and Technology (2026–Present)

## CERTIFICATIONS

**Google:** Machine Learning Crash Course

**Cisco Networking Academy:** Introduction to Modern AI, Data Science, Python Essentials 1&2

**Samsung Innovation Campus:** Python Programming

**Anthropic Learning** – Claude Learning Series
